## WANTS TO BE READY.

The London Times, in a leading article says: "It is difficult to avoid the suspicion that the Canton riot is directly connected with an irritation caused by the French operations in Tonquin. The time has arrived to more effectually secure British lives and property in China. The Chinese cannot be too forcibly impressed with the truth that all foreigners are not Frenchmen, and that the enormous interests of England are to be vigilantly protected. We can no longer postpone a substantial reinforcement to our fleet in China. There exists no reason to believe either France or China are in a mood to invoke England's mediation. The French have not reached the preliminary stage towards realizing the perilous course they have entered upon."

## BUTLER'S LOYALTY TO LABOR

At a meeting of a few of the chief men of the Greenback party in Boston yesterday it is said that Wendell Phillips had decided that he would no longer support Butler for any great office, having become convinced that the General has been tempted by a view of the Presidency and abandoned the cause of the working man and of the people and allied his political fortunes with the money power. A prominent Greenback leader and orator confirms the report, and other Greenback desertions are reported. One from that of a gentleman once on the same ticket with Butler. Leading Greenbackers consider the attitude of Phillips made a profound impression on Butler's Greenback labor followers.

## EDITORIAL NOTES.

At the time Dr. Dawson was removed from the Asylum, we said that the institution was by that act fairly launched on the uncertain sea of politics, and thenceforth would be the victim of spoliation with every change of party. The public will, from present indications, see only too early a fulfillment of that prophecy, for there promises to be a family row in the conspirator's camp and perhaps a general breaking up.

We are at a loss to understand why so useful and necessary a statute as the dog law should be repealed. It has the effect to release from confinement a lot of curs that bark and howl all night disturbing everyone. Heretofore they have been kept shut up for fear of the pound. Of course everyone has a right to keep a dog, but he should keep him in such a way as not to interfere with his neighbor.

The authorities at Canton are slow in repressing disorder, although order has been restored there. Great excitement prevails among all classes, and much indignation is expressed at the absence of men-of-war to protect European residents.

## TELEGRAPHIC BREVITIES.

—Canton is in a riot against foreigners.

—The cholera in Egypt is rapidly diminishing.

—The chief organ of the Nihilists, suppressed by the government some months ago, has again resumed publication in Russia.

—The cattle schooner Mary Ellen, which sailed from St. Johns, Newfoundland, just before the recent gale, was lost with all on board.

—George Slosson, the billiard player, wants to play Schaffer, the champion, provided the latter will play in New York or Chicago.

—F. J. Potter, General Manager of the Chicago, Burlington & Quincy railroad, will attend the railroad convention to be held in San Francisco on the 25th inst., to urge the pooling of all Pacific Coast business.

—The Countess Chambord authorizes the statement that her decision regarding the position of chief mourner implied no refusal on her part to recognize the undisputed rights of the Orleans Princes.

## EASTERN DISPATCHES.

(PRESS DISPATCHES TO THE GAZETTE.)

An Embryo State.

ST. LOUIS, Mo., Sept. 11.

The prohibitionists are making headway in the convention, and the people will probably have to meet the issue at the polls when the constitution shall be submitted. A number of prohibition politicians read to the convention to-day, articles relating to the Legislature and education, which were adopted. The most of the committees have reported. There are safeguards securing economy in every branch of the State government. The school lands are protected; the State cannot become involved in a large debt of any character except in times of war; the pardoning power is likely to be taken from the Governor and vested in a board, consisting of three men elected by the people. A meeting of delegates and other citizens of South Dakota is called for some day prior to adjournment, to adopt a protest to the President against the appointment of Governor Ordway.

Were not Tried in Utah.

BOSTON, September 12.

The trial of the Wrentham Mormons was concluded to-day. The jury returned a verdict of guilty against Evans upon two counts, and also a verdict of guilty against Mrs. Cobb, and another of guilty against Miss Whiting for lewd conduct. District Attorney Bumpus asked for an immediate sentence in Evans' case, which the Court granted. For his intimacy with Mrs. Cobb he was given two years at hard labor in the House of Correction, and for his conduct with Miss Whiting, one year at the same institution. The sentences of Mrs. Cobb and Miss Whiting were reserved to allow a further investigation, and see if the women would not abandon their immoral life. The result is hailed with pleasure by the residents of Wrentham and Foxborough, who have tried for over a year to break up this community of religious fanatics.

A Deadlock.

HARRISBURG, Pa., Sept. 12.

The Republican Senators, in caucus, resolved that two Senators should be present on every Tuesday, and then immediately adjourn to Friday; then meet Friday and adjourn to Tuesday, and neither make speeches themselves nor allow any others, nor entertain any proposition or resolution whatever. Nine Senators to be relieved alternately to go home, or do with themselves as they see proper; 29 Senators to be present on Thursday to finally pass the appropriation bill.

The Apaches Selling Their Victims' Jewelry.

EL PASO, Texas, September 11.

The Apaches are now trading in Casa Grande under the protection of a white flag. The Apaches have sold a chased gold ring, marked R. R. T. to R. F. N., besides two gold bracelets marked McComas. Geronimo, the chief who captured Charlie McComas, said he had not seen the boy since Crook's fight. Intense excitement reigns at Casa Grande and neighborhood. The Mexican troops from various parts are trying to surround the Apaches, and a terrible combat is hourly expected.

A Belt Railroad.

OMAHA, Neb., September 12.

Articles of incorporation of the Omaha Railway Belt Company were filed to-day, with a capital of \$800,000, with authority to increase to \$2,000,000. General Manager Clark of the Union Pacific is the leading spirit in the movement. The railroad is to be built around the city and will connect with the new stock yards and the town of New Edinburg, in which, Scotch capitalists and cattle dealers are the principal owners.

They Fear Treachery.

EL PASO, Texas, Sept. 12.

The Apaches show signs of a fear of treachery on the part of the Mexican authorities. It is the intention of the Mexican authorities to surround and keep them in the neighborhood of Casa Grande, until the cordon is completed. A bloody sequel, in this present state of affairs may be looked for.

Railroad Collision.

OMAHA, September 12.

This morning on the Union Pacific road eight miles west of this city, an excursion train with visitors to the Fair, coming in from the Missouri Pacific, collided with a freight going west, badly wrecking both engines; no dead reported, but many were injured.

Tariff for Revenue.

COUNCIL BLUFFS, Iowa, Sept. 12.

Governor Hendricks is stumping Iowa in the interest of the Democratic ticket. He made a powerful speech here to-day on the tariff question before a large audience.

Mormons in Jail.

BOSTON, Sept. 12.

At Dedham the jury returned a verdict of guilty against the so called Wrentham Mormons, and two were sentenced to three years in the house of correction.

## WESTERN DISPATCHES

(PRESS DISPATCHES TO THE GAZETTE.)

Another Democratic Paper.

SAN FRANCISCO, September 12.

The Call publishes the following: It is stated that several prominent Democrats are making arrangements to establish in this city a new morning newspaper, to be conducted in the interest of the whole Democratic party. The reason given is the dissatisfaction expressed at the course of the Examiner; that journal, as asserted, being run to suit only the tastes of the one wing of the Democracy favorable to the political aspirations of the owner.

Suit Commenced.

Major R. N. Batchelder, United States Army Quartermaster at San Francisco, has commenced suit against Kenny & Dyer for \$10,000. In 1881, Batchelder drew a check upon the Assistant Treasurer for \$1,740 in favor of Blair, and gave it to his clerk, J. F. Broadhead, to deliver to Blair; instead of doing so, Broadhead inserted the words "or bearer" after Blair's name, and then gave the check to the defendants, who, it is charged, collected, although knowing it to be fraudulent. In January, 1882, the Major drew a check for \$450 in favor of H. M. Black, which Broadhead raised to \$4,000 50, again giving it to the defendants, who collected it. As a separate cause of action, the plaintiff sues to recover \$4,550, also alleged to have been fraudulently obtained by the defendants.

An Important Railroad Meeting.

The meeting of the railroad managers, to convene in this city on the 20th inst., will be the most important ever held on the Pacific coast. One of the main features of the convention is said to be the final disposition of the Atlantic & Pacific Railroad. About one-half of the stock in this road is held by the Atchison, Topeka and Santa Fe Railroad Company, while the Central Pacific Railroad Company holds a similar amount of the stock; the balance of power being in the hands of some eastern capitalists. With which party they will vote is not yet known, but it is expected that the Central Pacific Company will win the fight, as their road is the only connection with the Atlantic Pacific road at the Needles.

Indian Trouble Anticipated.

Boise City advises state there is every prospect of another Indian war; this time with the Bannocks of Idaho. A week ago, at Little Camas Prairie, a party of Bannock Indians encountered a prospecting party, under Henry Bernard. One of the party lost his horse, and traced it to the Indian encampment, when he claimed it. The Indians became insolent, whereupon Bernard knocked one of the young bucks, who had the most to say down. The Indians opened fire, which was immediately returned by the whites, who wounded three Indians and killed one. Several members of the prospecting party were wounded, three of them seriously.

Indian Agent in Court.

TUCSON, September 12.

The cases of the United States vs. J. C. Tiffany, ex-Indian agent at San Carlos, are going to attract considerable attention. The trial is set for the 17th inst.

## FOREIGN DISPATCHES

(PRESS DISPATCHES TO THE GAZETTE.)

A Divided Sentiment.

PARIS, September 12.

The National says: Should the pending negotiations between France and China not take a favorable turn, the French will call an extraordinary session of the Chamber of Deputies. It is understood that Challemelet, the Foreign Minister, is in favor of acceding large concessions to China in the interest of peace. The Ministers of Marine, however, consider it an act of duty and honor to resist the encroachment of China in Tonquin.

An Italian Lunatic.

PARIS, Sept. 12.

The Italian officer who demanded satisfaction of Rochefort for the insult offered to king Humbert, is Lieut. Bettini, who attempted suicide in New York, and seriously wounded himself, owing to a lady having rejected his addresses. Bettini, who is evidently a dangerous lunatic, met Rochefort yesterday, and swore not to return to Italy without satisfaction. Rochefort drew a revolver and Bettini withdrew.

No Danger Apprehended.

LONDON, Sept. 12.

A telegram from Hongkong to the admiralty, says that two British gunboats are now at Canton, and that in connection with the Chinese troops on duty on shore, they furnish a sufficient guard for the foreign legation.

Less Wages.

MANCHESTER, Eng., September 12.

The Lancashire Cotton Spinner's Society passed a resolution declaring the depressed trade of cotton goods demands a reduction in both spinning and weaving departments.

A recent report by the Western Union Telegraph Company shows a steady increase of business and profits.

## TELEGRAPHIC BREVITIES.

—The spread of the cattle disease in every portion of England causes great uneasiness.

—The mediation of England in the French Chinese matter is again thought probable.

—Riots on the northern frontier of Croatia, by the peasantry who are rising and insulting the priests.

—A serious railway accident occurred at Hunter's Point, Long Island, killing two men and wounding eight.

—The Spaniards claim that Spanish agitators in Paris were ready to start another insurrection in Cuba, but were prevented by the fascio in Spain.

—James F. Legate of Leavenworth, Ellihu Coleman of Wisconsin and E.H. Dike of Illinois are appointed to inspect 1,500 miles of the Atlantic & Pacific Railroad.

—The protracted drouth which has done such great damage to crops in Virginia, has been broken by a heavy fall of rain, which is thought to be too late to benefit the crops much.

—The Mayor of Agram has issued a proclamation forbidding the assembling of groups of persons for any purpose, and prohibiting the people from walking abroad after dark.

## MISCELLANEOUS.

## HALL'S VEGETABLE SICILIAN Hair Renewer.

Seldom does a popular remedy win such a strong hold upon the public confidence as has HALL'S HAIR RESTORER. The cases in which it has accomplished a complete restoration of color to the hair, and vigorous health to the scalp, are innumerable.

Old people like it for its wonderful power to restore to their whitening locks their original color and beauty. Middle-aged people like it because it prevents them from getting bald, keeps dandruff away, and makes the hair grow thick and strong. Young ladies like it as a dressing because it gives the hair a beautiful glossy lustre, and enables them to dress it in whatever form they wish. Thus it is the favorite of all, and it has become so simply because it disappoints no one.

## BOB LEMMONS.

A Life Full of Change and Adventure.

Reno has a negro who has both a history and a character. He was a slave, owned by the father of Fielding Lemmon of this county, who lived in Polk county, Missouri. Although a very young and strong looking man, he says he is either 52 or 53 years old—he doesn't know which. Before the war he married a girl named Cindy Leachman, who had hired her time of her master and was working out. They had one child, a boy. They were in Fort Scott, Kansas, the last he heard of them, and the boy would be 23 or 24 now. Bob was sold South at auction a few years before the war by a new master, Mr. Lemmon having died. He left his wife and baby in Missouri and was taken to Louisiana. The war gave him his freedom, and he came back to Missouri, but could not find his family, so he came to California and has lived 12 years in Oakland, Bodie, Sonora and Reno. Bob is a fine-looking colored man, six feet tall, with a big square head and a laugh that would make his fortune on the stage. He is raising chickens and hogs and is doing well, but is going into the mines at Quincy in the Spring.

## Well Worth Having.

E. T. Bunyan of the *Golden Era*, the oldest paper on the coast, is in town for two days. A mammoth 32-page edition will be issued about December 1st, 1883, devoted to Nevada, Utah and Colorado. The edition will be handsomely illustrated with engravings of cities, towns and the noted scenery of the Garden of the Gods and National Park, and filled with graphic descriptions of the most interesting places, and a fair showing of the resources. Not published in the interest of advertisers, but as a tribute to the country, and in the interest of the paper, 5,000 copies will be circulated as samples, in order to bring the merits of the paper more prominently before the public.

## Well of Years.

John Hymers, father of Thomas K. of Reno and John A. of Pyramid, died a week ago in Croton, New York, at the great age of 90 years. Two years ago his wife died at 80. They came from Scotland in 1812. They had eleven children, nine of whom are living, the oldest being 62 years old.

## ANOTHER CHANGE.

Further Explanations in Regard to Asylum Matters.

Yesterday morning Dr. Bishop, Superintendent of the asylum, notified Dr. H. Bergstein, Assistant Superintendent, that he would be no longer needed there. The reason assigned was the appearance of a card in the *GAZETTE*, explaining an error which had been published a day or two previously. Dr. Bergstein proposes to locate in Reno, and make a home here. He has a well established reputation in the State, and it is generally believed that the success of the new management has been due as much to his skill and intelligence as to any other cause. So far as one can judge by outward appearances, there is nothing in Dr. Bergstein's card to justify his discharge. If there are other reasons, the public has a right to know them. Dr. Bergstein's idea was that he did not wish a friendly newspaper to be held responsible for an act of his. The *GAZETTE* said that the papers had started a story that guests were not allowed to see patients at their meals. Dr. Bergstein's card explained that he had told the *Virginia Chronicle* that the reason for this was that it annoyed them so they would not eat, and contradicted the report that patients were poorly fed. His card was entirely innocent, it seems to us, and unless there are other reasons, it was unfair and unwise to censure him for it.

## DR. BISHOP WAS FOUND.

On the street, busy, as usual, with a wagon full of watermelons and fruit for the asylum. He says he forbids Dr. Bergstein to publish the card in the *GAZETTE*, and his refusal to comply with that order was sufficient cause for his removal, as he was in the employ of the asylum, of which he (Dr. Bishop) was Superintendent, and when he was given an order it should have been obeyed. He says he has no desire to discuss the matter now, but has plenty of good ground under his feet. The attendants at the asylum all seem to be on Dr. Bishop's side of the question. They say Dr. Bergstein has a harsh manner, and treats them badly. If an attendant does not suit him, he treats him like a dog. Mr. Madden, one of the attendants, was in the buggy with Dr. Bishop when the reporter saw him, and he said that Dr. Bergstein was a great fault-finder, and harassed the attendants continually. He said he took the office for his private apartments, and the bath-room belonging to it for his own use, and the sitting-room in ward A for an office, which crowded the patients in ward A very much. Madden says Dr. Bergstein is extremely egotistic, disagreeable and overbearing.

## The Alta Mine Being Drained.

Excellent progress is making in the work of draining the lower levels of the Alta. The *Virginia Enterprise* says: Last evening the water had been lowered to a point 33 feet below the 1350 level. The pumps and the two bailing tanks are running all right. They are throwing out a vast deal of water. On the 1350 level, just passed, there are some 2,000 feet of drifts. It is required but 3 hours to drain the stations and these drifts; it is expected that it will take but two days and a half to drain these drifts and pass the station. They would walk the water down still faster but that there is as yet a considerable flow from the ground passed by. Thus, at the 1350 level, quite a stream comes into the station from the drifts, the ground along which is now draining out.

## A Sultry Climate.

The *Tucson Citizen* says: The heat on the Colorado desert has been greater this season than during any previous year for many years past, and the sufferings of those whose duties compel them to make the tedious trip frequently is almost overpowering. During the past two weeks the thermometer in the day time has stood persistently at 130°, and the close atmosphere has made the heat appear greater than it actually is. Tremendous thunder storms have been of frequent occurrence, and about a week ago one swept over the desert which was grand beyond description. It was followed by heavy torrents of rain.

## An Interesting Lecture Promised.

Prof. Foster will give a lecture in the Methodist Church the last of this month or the first of October for the benefit of the Women's Christian Temperance Union. His subject will be: "Antioch and the Lebanon Mountains, with a description of the peculiar customs and manners of the strange tribes which inhabit the slopes of these mountains." It will without doubt be an interesting lecture, amply repaying all who attend, besides helping a good cause.

## District Court.

The contempt of court case, which grew out of the water suit of Harden vs. Gammons, and which has occupied the attention of the District Court for several days, was decided by Judge Boardman yesterday, by dismissing the case, and taxing the costs to the complaining witness.

George Tyrrell, the business manager of E. B. Kall, the Carson hardware merchant, went below this morning, to attend the California State Fair.

Louis Dean returned from below this morning, and reports the beef trade about the same as for weeks past. He says that nearly all the beef now selling in California comes from Nevada.

## SOMEWHAT EMBARRASSED.

A Modest Ticket Agent Eaten by a Leap.

The Winnemucca *Silver State* says: As Ticket Agent David McBride, who is as modest as he is obliging, stood at his post yesterday, a handsome and apparently unmarried lady asked for a ticket to Golconda. He stamped the required pasteboard and laid it down on the shelf at the window, through which tickets are exchanged for coin. The lady fumbled in her purse for the change, and all at once she exclaimed, "What does my pet want? Be patient, darling." David turned the color of a boiled lobster, and stammered, "Ma—madam, I assure you there is no hurry, take your time." With a look that almost froze the blood in his veins the lady said: "Sir, I was speaking to my little girl," and peeping through the ticket window he saw a little cherub tugging at the lady's dress. He then sank into the arms of Conductor Davis, who promptly applied his smelling salts, and at latest accounts it was thought the agent would survive.

## No Gambling in Sight.

The Sacramento *Bees* says: Owing to the ordinance recently passed by the City Trustees, and the strict orders given to Police Captain Woods, there are no faro, rondo or other banking games to be seen in Sacramento, unless the people go hunting them. They are all in second story rooms, have open doors and are forbidden to allow minors to play. They each pay \$50 license to the city, if the license be taken out only for Fair week, or for one month, or \$100 for three months. If one game were to violate this law or attempt to do so the police would certainly arrest the proprietors and employes and prosecutions under the severe State law be conducted.

## For Freight and Travel.

A long and dreary pull is saved to passengers on the Susanville and Greenville stage line by the opening of the railroad between here and Opelida. Mr. Berry, the manager, has made all the arrangements for comfort, and is able to accommodate all who come. Nate Kendall is conductor, and all who know him feel that they are as safe as if at home when he is on duty. Mr. Meyert has Mr. Mulrooney to look after the mails, express and baggage. Any one driving in from the north can have their teams taken care of at Dave Evans, and come in on the cars in an hour or so, instead of driving over the hills through the hot sun and dust.

## Potted Criminals.

A yesterday's San Francisco dispatch says: There are at the present time 13 murderers in the prisons of this city awaiting punishment. One of them, George A. Wheeler, who strangled his sister-in-law and then cut up her remains and packed them in a trunk, has been waiting three years, with every prospect of waiting some considerable time longer, notwithstanding the fact that the crime was fully proven.

## The First Dance.

The young ladies of Reno will give the first dance of the season, at Kimball Hall, next Friday evening.

## SUICIDE IN JAIL.

Dewitt Stocker of Carson Commits Suicide by Hanging.

This morning's Carson *Appeal* says: Yesterday afternoon about 1 o'clock Deputy Sheriff Doron found the body of Dewitt Stocker hanging by the neck to one of the iron doors of the county jail. It was suspended by a piece of baling rope which Stocker had formerly worn about his body as a waistband. Doron cut the body down at once but it was too late. About 15 minutes before he had been in the jail and administered Stocker some medicine. The suicide was very determined, the man having put his legs up under his body to prevent his feet touching the floor. The deceased lived for many years in this city, and at one time drove a stage for Charley Bray. He came down from the Lake a few weeks ago and spent \$200 in dissipation. He was sent to jail for seven days, and at the time of the suicide was the only inmate of the institution. He was a native of Indiana, son of Leland Stocker, a Baptist minister, and 40 years of age. An inquest was held last night and a verdict of suicide rendered by the jury.

## Humboldt Items.

The *Silver State* of the 11th inst. says:

It is rumored among railroad men that there is to be a change of time on the road shortly. It is stated that the express trains will probably meet at Carlin, and that the east-bound train will arrive here in the evening, instead of 1:20 P. M., as at present. It is hoped that the rumor is well founded.

C. B. Mayon, an experienced mining man, who has been looking at several mining properties in Nevada, arrived from Rebel Creek this morning with a sack of specimens from several leads in that district. Some pieces of the ore are rich in silver, while others are specked with gold.

There are 15 men employed at the Lang Syne mill and mine at Dun Glen under the supervision of G. M. Ross. The mill is being thoroughly repaired and the mine is being put in condition for stopping. The ledge in the shaft below the tunnel is quite large, and there is also a fine body of ore above the tunnel level.

## Gus Lewis' Funeral.

The Carson *Appeal* of this morning says: Gus Lewis was buried yesterday, the services being held at the Episcopal church. There was a large crowd present, and both engine companies attended in a body. Rev. Davis read the regular burial ritual of the church, and closed with a short discourse upon the qualities of the deceased. Messrs. Hatch, Edson, Dow and Miss Dorsey rendered the music. The following gentlemen acted as pall bearers: John Trapp, George W. Chedie, John Q. Moore, H. S. Mason, Alfred Helm and Jacob Muller.

## A Sure Crop.

As proof positive that grapes can be successfully grown in this climate is the fact that the vines on Charley Becker's premises, on the south side of the river, below the V. & T. track, are loaded down with fruit, and of as fine a flavor as can be grown in any country.

## The Redeemed South.

In the 15 years since the war the South has raised nearly 10,000,000 bales more cotton than she did during the last 15 years of slavery. This addition was worth about \$800,000,000. Almost enough to compensate them for the loss of their slaves.

## Close Work.

Two of the Carson Guard and two of the Emmet Guard shot together at the 200-yard range yesterday morning, and made the following score: Crawford, 46; Cowling, 46; Galusha, 46; Burke, 46.

## The Wadsworth School.

N. A. Hummel, of Virginia City has been employed to take charge of the Wadsworth school, vice S. D. Bristow, who resigned to accept the principalship of the Austin schools.

## Literary Club.

The Reno Literary Club will meet at the residence of Mrs. J. Finlayson to-morrow (Thursday) evening. A full attendance is requested, as there will be an election of officers.

## A Valuable Incentive.

A gold medal, valued at \$150, will be presented by citizens of Virginia City to the person making the best individual score in the Inter-State rifle match, at Carson, next Monday.

As a true and efficient tonic, and one that excels all other iron medicines, take Brown's Iron Bitters.

**GENERAL NOTES.**

The man who was arrested on a charge of breaking into the section house below town was discharged from custody yesterday, the evidence of guilt being deemed insufficient to warrant his detention.

The dense volume of smoke arising from Frank Cutler's brick kilns, in the west end of town, caused dozens of people to walk a block or more out of their way to satisfy themselves that the town was not on fire yesterday.

A bridge on the street leading to Bishop Whitaker's School is in a very bad condition, and which can be made passable by the application of a few loads of sand or gravel, to which the attention of Roadmaster Thompson is directed.

The Footlight declares that "the probabilities are that Steamboat Springs will be the favorite resort in future for picnic parties. The Miners' Unions have reasons to be proud of their success in inaugurating a new departure, and proving that a picnic can be held at other places than Treadway's Park."

Work on the Pyramid Company's tunnel was temporarily suspended from Saturday night until Monday night on account of the breaking of a piston of one of the drills, which had to be taken to Virginia to be repaired. Work was resumed Monday night and is moving along at the usual rate.

The Battle Mountain Messenger says: "The State of Nevada has suffered many years from unfavorable legislation, and her principal industry has been unjustly discriminated against on every occasion. Even our own Legislature passed an Act at its last session taxing the net proceeds of mines producing one ton of ore or less per day. Now mines that produce but one ton or less are generally worked by the prospectors only, and yet the same act is intended to encourage the prospecting of undeveloped mines. Our Government has enacted laws whereby all other industries are encouraged and fostered. Inducements have been held out to persons to set out forest and fruit bearing trees; the Government has also offered premiums on artesian wells. Cattle men are allowed the privilege of grazing their herds on public lands. Railroads are granted subsidies and large grants of valuable lands, but mining is retarded and hampered in every possible way. What the State of Nevada needs—and there are several other States and Territories, that need the same thing—is men in the United States Senate and Congress who will endeavor to defeat the enemies of silver mining, the men who from selfish motives have by the help of the money provided by the national banks, defeated and crippled every effort on the part of our Senators to encourage legitimate mining. The stock brokers who have for years existed, and many of them becoming millionaires, not off the legitimate product of the mines, but from manipulating the stock and giving it a fictitious value for the sole purpose of inducing the working man to invest with the expectation of obtaining a fortune in a short time, must go. The broker toils not, neither does he spin (unless it is big yarns); yet he lives on the best the land affords, and at the expense of the laboring classes, who foolishly invest their earnings in the expectation of suddenly becoming rich. They daily see their broker riding in his carriage enjoying life, but never stop to consider from whence comes the money to support him in this style. The day has arrived when mining must be purged of all the barrenness, which now eat up its legitimate earnings. Men must be sent from the mining States and Territories who will pledge themselves to unite and endeavor to defeat the measures, which the enemies of silver are using to cripple our great industry, or the Mining States and Territories had better be turned over to the festive jack rabbit and the howling coyote.

**SCROFULA**

and all scrofulous diseases, Scars, Erysipelas, Eczema, Bores, Ringworms, Tinea, Carbuncles, Bolls, and Eruptions of the skin, are the direct result of an impure state of the blood.

To cure these diseases the blood must be purified, and restored to a healthy and natural condition. AYER'S SARSAPARILLA has for over forty years been recognized by eminent medical authorities as the most powerful blood purifier in existence. It frees the system from all foul humors, enriches and strengthens the blood, removes all traces of mercurial treatment, and proves itself a complete master of all scrofulous diseases.

A Recent Cure of Scrofulous Sores.

"Some months ago I was troubled with scrofulous sores (ulcers) on my legs. The limbs were badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy I tried failed, until I used AYER'S SARSAPARILLA, of which I have now taken three bottles, with the result that the sores are healed, and my general health greatly improved. I feel very grateful for the good your medicine has done me."

Yours respectfully, Mrs. ANN O'BRIAN,"

148 Sullivan St., New York, June 24, 1882.

All persons interested are invited to call on Mrs. O'Brian; also upon the Rev. E. F. Wilds of 28 East 64th Street, New York City, who will take pleasure in testifying to the wonderful efficacy of Ayer's Sarsaparilla, not only in the cure of this lady, but in his own case and many others within his knowledge.

The well-known writer on the Boston Herald, B. W. BALL, of Rochester, N.H., writes, June 7, 1882:

"Having suffered severely for some years with Eczema, and having failed to find relief from other remedies, I have made use, during the past three months, of AYER'S SARSAPARILLA, which has effected a complete cure. I consider it a magnificent remedy for all blood diseases."

**Ayer's Sarsaparilla**

stimulates and regulates the action of the digestive and assimilative organs, renews and strengthens the vital forces, and speedily cures Rheumatism, Neuralgia, Rheumatic Gout, Catarrh, General Debility, and all diseases arising from an impoverished or corrupted condition of the blood, and a weakened vitality.

It is incomparably the cheapest blood medicine, on account of the concentrated strength, and great power over disease.
